HOUSE

APARTMENT

INTRODUCTION

WIKĘD is a Polish manufacturer of windows and exterior doors for houses and apartments. In a factory located in Luzino in northern Poland there are currently over 400 employees.

The brand was founded in 2002 and in for two decades now constantly improves its products.

WIKĘD is the leader in the exterior doors market in Poland, receiving numerous awards and distinctions in rankings.

MODEL RL5 / COLOR LUNAR GLOW / HANDLE KING / SIDELIGHT TILT-TURN DOOR LIGHT GLASS BLACK 55 CM AND GLASS BLACK 55 CM

ABOUT US

Our doors open millions of homes

WIKĘD gives you unlimited possibilities of choosing and personalizing the door for your home. The unique variety and the multitude of possibilities for new solutions will emphasize the individual style. We use proven technologies for the production of our doors, which, combined with a modern machine park, allows us to produce doors for the most demanding customers.

machine park

proven
technologies

PICK AND CHOOSE

Thanks to our technological capabilities, we make it possible our customers can choose to paint their doors from a wide range of colors.

This solution allows you to match the door to any interior. Regardless of whether you dream of bold expression or subdued elegance - you will find what you are looking for here.

COLOR DOOR:

1. SWEET APRICOT 2. RASPBERRY 3. MAGNOLIA BLOSSOM 4. RUSTY BRONZE
5. INK 6. COBALT BLUE 7. BLUE MIST 8. AZURE 9. ALPINE LAKE 10. MOSS 11. FOREST GREEN 12. SAGE
13. LIMESTONE 14. SAVANA 15. SALTY CARAMEL 16. GOLDEN HOUR 17. SUNFLOWER

See our sample combinations
colors and get inspired!

DUOCOLOR

The door leaf can have two different colors - only on the outside or inside, as well as on both sides. Choose from the Top Trends Color and Natural Decor palette - combine freely.

BICOLOR

The color of the door frame may be different from the color of the door, from the outside, from the inside or from both sides. Possibility to select and combine colors from the Top Trends Color and Natural Decor palette.

FutureINOX MIXCOLOR

Combination of Duocolor and Bicolor options, which allows you to create unique combinations colors in the collection patterns Future Innox. The doors can have two different colors, the color of the door frame may vary on the color of the door and exterior may differ from the inside.

EXTERIOR DOORS FOR THE HOUSE

Good external doors are those that protect your house and its inhabitants. In the wide range of WIKĘD external doors you will find doors to both classic, as well as a modern home. Additionally, we offer the ability to customize the functionality of your doors with additional equipment elements such as SMART technology or LED backlighting. Doors are made of high-quality materials for safety and peace in your home. Check out our proposals and get inspired.

COLLECTION

ROYAL

SoftLINE

ROYAL

Our ROYAL door collection is doors that that will take you to a world full of elegance and tradition. These doors delight with their classic design and unique, decorative frames giving your home a unique character.

There are versions among several designs with glass elements and solid doors. All models present perfectly in two variants.

We offer mono-colored doors with a leaf and durable aluminum frames are available in the same selected color from our rich palette or a door leaf variant with veneer from the Natural Decor palette complemented by frames in deep, matte black.

ALL AVAILABLE DESIGNS FROM THE ROYAL COLLECTION CAN BE FOUND IN THE DESIGNS INDEX ON PAGE 122

Soft LINE

Doors from the Soft Line collection are the quintessence of elegance and subtlety.

The modern and extremely coherent form of the door was achieved by eliminating the glass frames surrounding the glazing.

We offer minimalist models from this collection in a lacquered version in one of the colors from the palette:
Top Trends Color, Crystal Sky Color
or available RAL colors.

A very wide range of colors allows for perfect matching doors to the individual style of the home owners.

GLASS
DESIGN

The Black glazing in the Glass Design door collection is very reflective. The presented doors feature full-height glass, which gave this unique visual effect.

COLLECTION

GLASS DESIGN

GLASS DESIGN exterior doors are a very attractive proposition of a modern, refined design. This collection is distinguished by exceptional attention to every detail. Door leaf and the glass pane form a uniform plane from the outside as well as inside of the house.

GLASS LOFT

The GLASS LOFT collection is a perfect example of the possibility of combining the Black glass along the entire height of the door leaf with the latest model of this collection and with an individual color.

COLLECTION GLASSLOFT

Exterior doors from the GLASS LOFT collection fascinate with the panes of glass applied directly on the door leaf with a built-in glazing unit. Under the black, Lacobel glass we placed translucent glass.

GLASS FRONT

The GLASS FRONT collection has been expanded with two original designs, with an interestingly placed glass pane on the surface. For the first time, we installed the Alfa DOOR-BAR to adjust it to individuality in design.

COLLECTION

GLASSFRONT

GLASS FRONT exterior doors collection is distinguished by a deeply black glass pane. Black glass is applied directly onto the full door leaf giving a realistic glazing effect.

Future
INOX

Door leaf coat and decorative elements from the Future INOX collection are made entirely of aluminum.

Through this doors are exceptionally durable and feature very good protection against weather conditions.

COLLECTION

FutureINOX

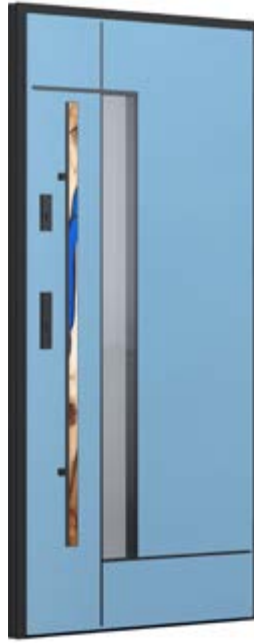

FUTURE INOX aluminum doors are completely smooth. Glazing and decorative aluminum frames are fitted perfectly with the door surface. These details reflect the whole idea of the Future INOX collection.

MODEL F112 / COLOR WOODEN OAK TURNER / DOOR-BAR POCKET

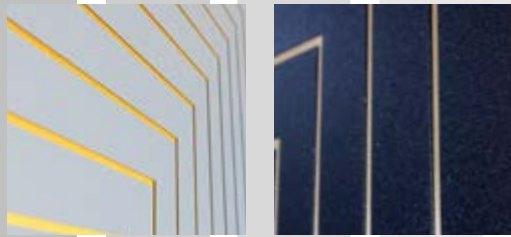

MODEL 3D 1 / COLOR COBALT BLUE /
DOOR-BAR TORO / SIDELIGHT SATIN 30 CM

Doors from the pattern collection^{3D} they attract attention and emphasize modernity of the house.

This extraordinary collection of doors is based on three-dimensional patterns giving depth and dynamics. These patterns are created by combining two layers of sheet metal placed on the entire surface of the door creating interesting spatial effects. The pattern depth effect is then intensified and very effective thanks to the combination of contrasting colors from our rich palette color. The collection of 3D patterns are doors with an original design that is based on the latest architectural trends, which surprise with their originality.

COLLECTION

Classic Models

Classic doors can be divided into two types: the former, comprised of models with lower numbering will work great in classic construction, where elegance and timelessness are the most valued style. The latter are characterized by simplicity in shapes, these are the doors for lovers of simple, modern and functional style.

DOOR CONSTRUCTION AND TECHNOLOGY

WIKĘD

DOOR ENERGY SAVING INDEX

HIGHEST
ENERGY SAVING

ALU HYBRID

Ud od 0,54 $\text{W/m}^2\text{K}$

Heat transmittance coefficient

Flush, non-rebated ALU HYBRID doors

This technology allows you to create doors that are flush on both sides, and the leaf made of two aluminum layers creates a top-class product.

Termo Prestige Lux

Ud od 0,79 $\text{W/m}^2\text{K}$

Heat transmittance coefficient

An advanced line of external doors designed for very demanding customers.

Excellent technical parameter, provides excellent thermal and acoustic insulation.

Optimum Termo

Ud od 0,85 $\text{W/m}^2\text{K}$

Heat transmittance coefficient

Optimal line of external doors intended for demanding customers.

A wide range of visual and technical solutions combined with a very good value for money.

Premium *plus⁺*

NEW

Ud od 0,88 $\text{W/m}^2\text{K}$

Heat transmittance coefficient

The new technological line of doors based on an aluminum-wooden frame and a 64 mm thick door leaf with excellent thermal transmittance parameters offers an increased standard of equipment.

Premium Termo

Ud od 0,98 $\text{W/m}^2\text{K}$

Heat transmittance coefficient

Basic line of external doors with good technical parameters.

Many designs and equipment options combined with an attractive door price.

ALU HYBRID

The flush-mounted seamless ALU HYBRID door is a combination of two proven technologies used so far in the WIKĘD door - a reliable, warm and slender aluminum frame and a super-durable glass fiber composite with a carbon coating with excellent thermal and static parameters, which is the core of the door. The new technology allows you to create doors that are flush on both sides with a door-leaf made of two aluminum sheets which combined creates the highest product class.

Heat transmittance coefficient
 $U_d = 0,54 \text{ W/m}^2\text{K}^*$

Door leaf thickness

Acoustic isolation
30dB*

Security class RC2**

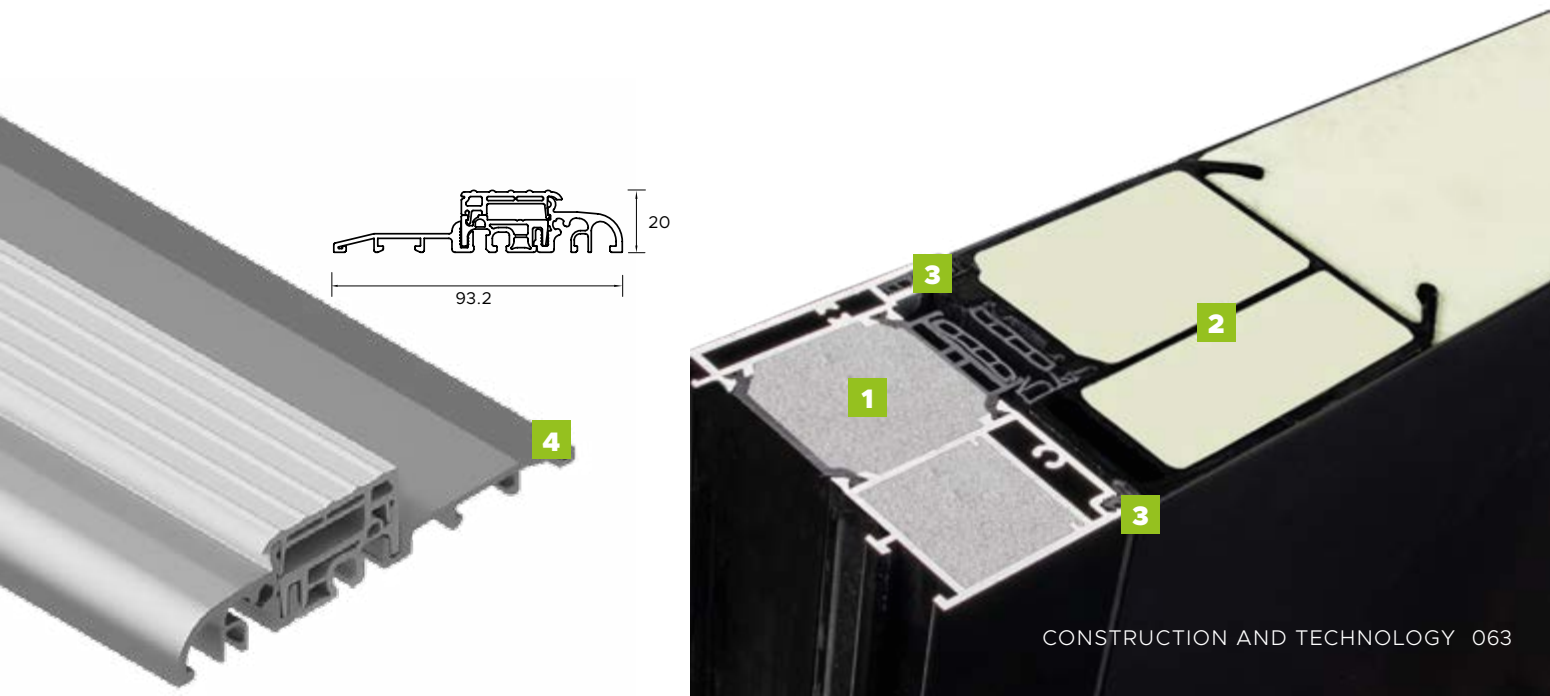

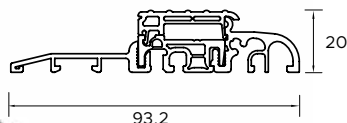

* Only doors without glazing

** IAW PN-EN 1627:2011. Only for full doors or with P4 glazing and INOX decor and fitted with C class lock and HANDLE

DOOR CONSTRUCTION

- ALU HYBRID insulated door frame with an XPS insert that improves thermal performance. **1**
- Door leaf made of fiberglass composite with carbon structure and filled with polyurethane foam with a composite frame. **2**
- Door leaf with peripheral seal and an additional masking trim. **3**
- Door leaf with peripheral seal and an additional masking trim.
- Three 3D hinges adjustable in 3 dimensions.
- 8-point locking mechanism (hook-bolts).
- Lower and upper points controlled with the main lock
- Clamping bar over the entire height of the of the frame.
- LAVA handles.
- Burglar-resistant cylinder-lock or double-sided cylinder (security class "D").
- Custom **WIKĘD** key.
- Minimalist ring door lock cover (with DOOR-BAR).
- Insulated PVC/ALU threshold with thermal partition. **4**

Termo Prestige Lux

A range of advanced entrance doors for very demanding customers. A wide choice of pattern configurations and accessories, combined with excellent technical parameters, guarantee perfect thermal and acoustic insulation values.

Heat transmittance coefficient
 $U_d=0,79 \text{ W/m}^2\text{K}^*$

- Upper hook-bolt.
- Additional upper lock with knob cylinder (single key system).
- 3-point lock with main lock and cylinder (single key system).
- Prime, Tahoma, Manitoba or Magnus HANDLE.
- Lower hook-bolt.
- Door leaf with 4-sided seal.
- Windstoper (seal preventing potential drafts in threshold section).
- Warm, PVC/ALU threshold with thermal barrier. **4**

NOWOŚĆ Premium *plus*⁺

The new technological line is based on a warm aluminum-wooden door frame and a 64 mm thick door leaf filled with polyurethane foam. The combination of these features means that the doors in this series achieve an excellent thermal transmittance parameter of 0.88 W/m²K. The doors have an increased, rich standard of equipment: a hook-bolt lock, a warm threshold, a modern handle in two colors: Black and Inox, and a glazing unit (in glazed models) in the top color: Dark Gray with a black, warm inter-pane frame.

Heat transmittance coefficient
 $U_d = 0,88 \text{ W/m}^2\text{K}^*$

MODEL F111 / DOOR-BAR TORO LED / COLOR OF THE DOOR LEAF WHITE MATT / COLOR FRAME BLACK MATT / SIDELIGHT BLACK WITH LED 30 CM / MULTI SMART / WIKED SMART

Door, that you open with your phone.

Imagine a house or apartment that you open without keys.

With our Wikęd SMART system, you can open the door using your phone, from anywhere in the world. Manage door opening or LED lighting. Turn off the push-button DOOR-BAR remotely, turning it into a virtual doorbell using the app.

- Remote access from anywhere in the world
- Door closure status
- Information about locked or open doors
- Remote door opening
- Remote control of the LED backlight
- Access via your smartphone (iOS/Android)
- Secure, encrypted remote connection
- Simple installation and use

WIKĘD SMART

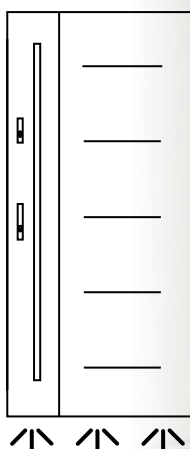

CONTROLLER WIKĘD SMART

Using a smartphone from anywhere in the world (limited only by Internet coverage), we can control automatic locks and the LED backlight available in our offer (threshold illumination or LED light inlays) according to the schedule previously set in the application. Thanks to Wikęd SMART, we can turn off the button in the handle, turning it into a bell with notification on the phone. In the application we can also check independent information about closed or locked doors.

LED THRESHOLD LIGHTING

Subtle light placed in the threshold makes the door even more beautiful and more practical.

LED HANDLE ILLUMINATION

The LED DOOR-BAR illumination not only adds elegance and a modern look, but also plays a practical role, helping optimal illumination of the entrance to your house.

MULTI SMART

DESCRIPTION

The Multismart system is an advanced hybrid access control system that combines three security elements: a fingerprint reader, a code keyboard and an RFID proximity reader. We recommend an electromotive lock.

RING DOOR LOCK COVER

DESCRIPTION

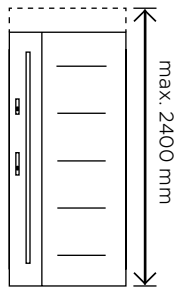

COLORS: INOX, BLACK, GOLD. Available only for the Termo Prestige Lux and Alu Hybrid doors.

NEW SMART LOCK YALE 2

DESCRIPTION

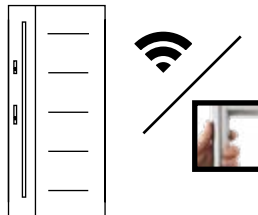

The new version is improved compared to the previous model, including: easier installation, more discreet LED light ring, smaller housing, new lock sounds, USB-C charging, slimmer and elegant lock profile, silver and black matte color and much more.

DOORS HIGHER THAN STANDARD

DESCRIPTION

Maximum height with frame (Hc) up to 2400 mm. Only available for doors with a Termo frame. It applies to single doors and doors with sidelights.

AUTOMATIC LOCK

DESCRIPTION

Automatic lock with remote controlled motor. The set includes an automatic lock and a power supply. Only for Termo Prestige Lux doors, fitted with an automatic locking mechanism. The element does not require the use of electric strikes.

ELECTRIC MOTOR LOCK

DESCRIPTION

Motorized lock with electric motor for external control. The set includes a motorized lock and appropriate wiring. Available only for the Termo Prestige Lux and Alu Hybrid ranges.

DOOR CLOSER REINFORCEMENT

DESCRIPTION

Used to allow installation of a door closer later on.

ALUMINUM-COMPOSITE FRAME

DESCRIPTION

Available for: Premium Optimum

DOOR-BAR DISABLING BUTTON

DESCRIPTION

Color: INOX or Black.

TERMO FRAME

DESCRIPTION

Available for:
Premium
Optimum

TERMO JOINT

DESCRIPTION

A profile that can be easily connected to the Termo frame or the Termo sidelights, allowing connection at the 90° angle

ELECTRONIC DOOR VISOR

DESCRIPTION

4" LCD digital screen, infrared camera. Records up to 50 photos when the doorbell is pressed

HOUSE NUMBERING

DESCRIPTION

Made of stainless steel from in INOX or Black.
Height: 15cm.
Includes a single number or a single letter with high-strength double-sided adhesive tape.

DOOR VISOR STANDARD/PREMIUM

DESCRIPTION

Colors: gold, silver or black
Diameter: ø 30 / 46mm

DOOR CLOSER

DESCRIPTION

Stainless steel door closer. Colors: black or silver.

MAGNETIC CONTACT SWITCH

DESCRIPTION

Opened/closed sensor
Colors: white, brown, anthracite

ELECTRIC STRIKE POWER SUPPLY

DESCRIPTION

12V power supply mounted in an electrical box Ø min. 70 mm and 24V installed in a pocket housing.
Necessary for a door bar with a button or electric strike (connected to the power supply).

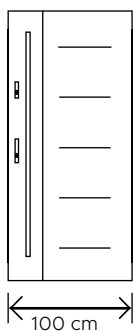

ALU TECHNOLOGY

DESCRIPTION

The option is available for some classic door models with a Termo frame.

Allows to manufacture steel doors in aluminum technology. Cannot be used in Cameleon options.

DOOR 100" + 100N

DESCRIPTION

Door leaf with size 100

LETTERPLATE

DESCRIPTION

Color: INOX

Dimensions: 35x7,5 cm

CAT DOOR

DESCRIPTION

Transparent and silent flap with special seal and magnetic lock; has 4 modes to enter. Made of plastic resistant to various weather conditions.
Colors: white, gray

CLEANING AND POLISHING SPRAY

DESCRIPTION

For INOX stainless steel
Together with a microfiber cloth. Removes dust, grease and fingerprints. Preserves the surface, provides the proper protection, leaving a streak-free shine.
Capacity: 650ml.

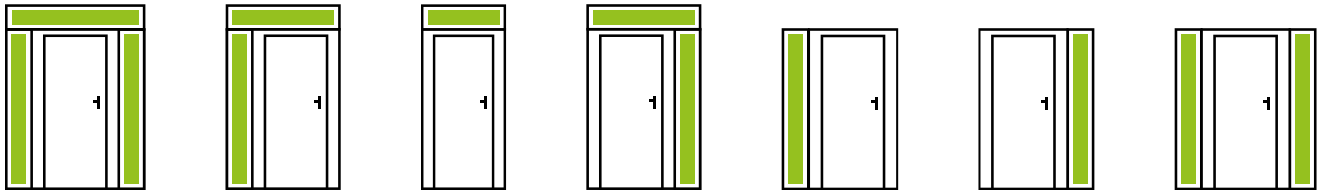

TERMO SIDELIGHT

Sidelights are only available as a set with TERMO frame.

By using TERMO frames, it is possible to combine sidelights with single leaf doors and double doors. They consist of a TERMO aluminum profile with thermal break. Available in all colors. Each sidelight has triple glazing as standard. The sidelight set includes a mounting kit.

It is possible to make sidelights and toplights in non-standard sizes.

AVAILABLE OPTIONS

TILT AND TURN TRANSOM SIDELIGHT

We also give you the opportunity to choose a fanlight tilt and turn with a so-called hidden sash, which from the outside looks like a classic sidelight without visible wing profiles.

SIDELIGHT XL

The XL sidelights offer includes a wide selection of sizes that will be available more natural light into your interior, while maintaining modern design. Our sidelights are available in widths up to 1500 mm and are equipped with a stabilizing static connector mounted from the inside of the room, while maintaining an amazing visual effect. This is a perfect option for people who are looking for a modern, loft apartment style and safe solutions.

SIDELIGHT
XL

LED LIGHTING

DOOR-BAR

The delicate LED light illuminating the door bar is very practical and gives an amazing visual effect.
Check which of our pull rods can be illuminated.

SIDELIGHT

Our sidelights can be equipped with the linear LED light matching the door models. The delicate horizontally arranged light mounted in the glazing will add individuality to your home.

THRESHOLD

The subtle light placed in the threshold makes the door even more beautiful and practical.
Your doors keep looking great long after dusk.

APARTMENT FRONT DOORS

For collective buildings or other multi-family buildings we offer IRON and PROTECT entrance doors.

WIKED apartment front doors are not only strong and durable, but also protect tenants from noise, burglary and fire.
Feel comfortable in your apartment.

APARTMENT FRONT DOORS

IRON

Iron is a new range of burglar-proof and stylish front doors for apartments. These are doors with a modern design that you can adapt to your tastes and your apartment, choosing from different models and painting them in any color. The Iron range is made up of durable and resistant materials which provide protection and comfort of use. The Iron doors include a wide choice of door frames and the option of modern finishes with an architrave.

APARTMENT FRONT DOORS

PROTECT

Do you appreciate silence, comfort and you take care of your life and that of your loved ones? Do you want to be sure that your apartment is protected against dangers such as fire, burglary or noise? Choose a range of secure doors designed specifically for apartments. Depending on your needs, choose PROTECT doors in the following versions: fire-rated, burglar-proof and acoustic.

THE DOOR INDEX
PROTECT
ON THE PAGE 128/129

IRON

IRON burglar-proof apartment doors intended for demanding customers. Made with durable materials, they not only guarantee safety, but also very good sound insulation. This is a range of doors dedicated to apartments, allowing an elegant finish with an architrave in any variation and color. The IRON line is the ideal choice for people who are considering replacing the doors in their apartment. Thanks to the solutions available, they can be easily adapted to the structure of the building, even in the case of installation of the threshold after laying the floor and parquet.

OLD
GOLD

MAKE YOUR APARTMENT STAND OUT

A modern apartment entrance featuring a dark grey door with a light wood panel and a decorative slat surround. The door has a dark handle and a gold-colored number '37' on the right side. The slats are made of a light-colored material, possibly wood or metal, and are mounted on the exterior side of the door leaf. The overall design is sleek and contemporary.

Stand out with the option to use decorative slats on IRON and PROTECT doors, which are made of steel sheet. The slats are mounted on the exterior side of the door leaf (only for inward-opening doors). Choose from colors in the Natural Decor palette (basic colors).

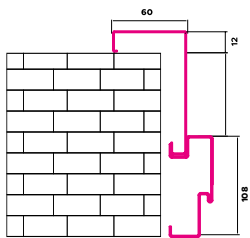

CHOOSE YOUR DECORATION.

BAND

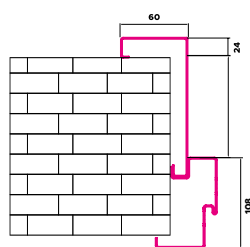

The band used exclusively in **IRON** doors is also made of steel, which ensures greater security. It allows for aesthetically matching the doors depending on the mounting method and building construction.

Architrave with the IRON internal door frame

Architrave with IRON adjustable door frame

■ NATURAL DECOR ■ CRYSTAL SKY COLOR ■ TOP TRENDS COLOR ■ RAL

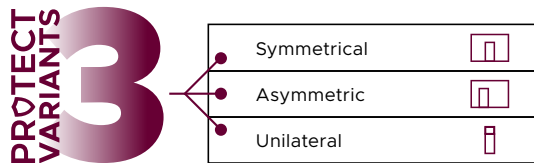

The decorative portal and band can be painted in selected WIKĘD color palettes.

PORTAL

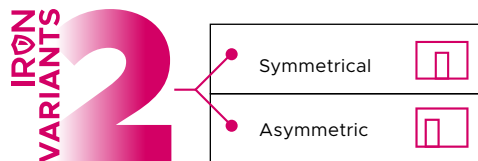

The decorative portal for **PROTECT** and **IRON** doors, instead of commonly used chipboard, is made of durable and scratch-resistant steel. This solution ensures durability and perfect color matching with WIKĘD doors.

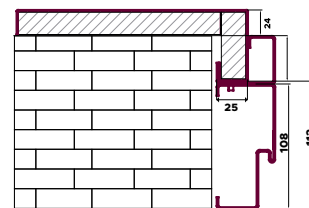

PROTECT portals come in 3 variants:

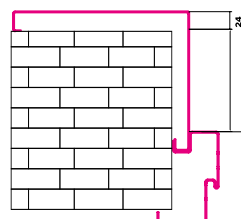

IRON portals come in 2 variants:

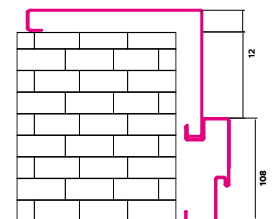

Portal PROTECT

PORTAL WITH IRON ADJUSTABLE FRAME

PORTAL WITH INTERNAL FRAME IRON

Step by step - How to become the owner of WIKĘD doors?

We know that choosing the perfect doors is an important matter. That's why we've prepared a short step-by-step guide for you, which will make the whole process a real pleasure!

Let's start with the fact that WIKĘD doors are not just a practical part of your home's furnishings, but also an integral element of its style and character. Therefore, it is worth taking a moment to carefully consider which doors best suit your taste and needs.

1

GET INSPIRED

Find your dream doors in the WIKĘD configurator or catalog. Configure the doors, place them on a photo of your house, and save the file with your designed doors.

2

GO TO THE PARTNER SHOWROOM

Go to the WIKĘD website, navigate to the "Where to Buy?" section, and choose a showroom in your area. Visit the selected sales point in person.

3

ASK ABOUT THE SAMPLE

Ask the salesperson for a presentation of the samples to see the colors, textures, and construction of the doors in person. Also, inquire about other door elements that interest you.

4

STATE YOUR EXPECTATIONS

Talk to the salesperson about your expectations regarding the doors, present your project from the configurator, and our advisors will propose the best solutions.

5

SUBMIT YOUR ORDER

Once you have chosen your dream doors, simply place an order, which will then be forwarded to the WIKĘD door factory.

6

WAIT FOR IMPLEMENTATION

Some of our doors are available in sales showrooms for immediate purchase. More customized, individual configurations require more work. Confirm the production time at the showroom. During this time, prepare your home for the new doors.

7

ENJOY THE DOOR

The new doors have arrived at your home. Make sure the installation has been done correctly and enjoy your new WIKĘD doors!

MODELS INDEX GLASS

Doors with black Lacobel glass from the GLASS series are a combination of modernity and elegance. You can choose from a variety of patterns, with or without glass, that will enchant you with their unique design. Black Lacobel glass gives the doors a distinctive character and style.

MODELS INDEX IRON & PROTECT

The IRON and PROTECT lines are two collections of doors designed for apartments. They provide not only aesthetics but also exceptional durability and protection for your home. The door models presented in these apartment-specific lines are solid doors without glazing.

Thank you for your trust and continued motivation for our development.

In this catalog of the 2023 exterior door collection, we have presented a range of new and inspiring solutions, representing only a small portion of our full production capabilities. You can be assured that our offer includes everything you need - from basic, functional, and minimalist products to innovative, modern, and the most sophisticated doors.

COLLECTION 2023 EDITION 2024

This catalog contains legally protected confidential materials and information and is intended solely for WIKED Sp. z o.o. Sp.k. Trading Partners. The prices listed in this catalog serve as the basis for calculating the price of the Manufacturer's products and are exclusively dedicated to Trading Partners within Poland. The prices represent suggested resale prices at sales points within Poland and are expressed in Polish zloty. The given prices do not include VAT, which should be added according to current regulations.

All orders based on this catalog are made to individual specifications of Trading Partners, tailored to their specific needs. The ordered products are created based on a customized and agreed production process for each order, including color schemes, dimensions, equipment, etc. Terms such as standard execution, typical dimensions, and standard equipment are introduced by the Manufacturer to describe the most popular and common dimensions, execution, and color schemes for a given product as assessed by the Manufacturer and serve as the Manufacturer's reference terminology. The drawings and photos in the catalog are for illustrative purposes only.

The Manufacturer reserves the right to make changes due to technical and technological advancements without prior notice, provided that these changes do not diminish the aesthetic and functional qualities of the products. This catalog does not constitute an offer within the meaning of the Civil Code. All rights reserved. No part of this publication (such as texts, graphics, logos, icons, tables, images, photos, drawings, etc.) may be reproduced or distributed in any form or by any means without prior permission from the Manufacturer. All trademarks, graphical signs, proprietary names, logos, and other data are protected by copyright and belong to the Manufacturer. The previous catalog dated 02.10.2023 is no longer valid.
